

Subject: Exciting Opportunity: Import/Export Operations Lead (UAE-KSA) – Creative Gifting Company

Dear Candidate,

I hope this email finds you well.

We are a fast-growing creative gifting company with our headquarters and manufacturing facility based in Riyadh, KSA. As part of our strategic growth plan, we are initiating our expansion into the UAE market.

While our long-term goal is to establish a full presence in UAE, our immediate need is to secure an experienced **Import/Export Operations Executive** who can act as our "boots on the ground" in the UAE. This is a pivotal, high-autonomy role where you will be responsible for establishing and managing our supply chain bridge between UAE & Riyadh, as well as managing our global imports.

The Opportunity:

We are looking for a capable individual who can single-handedly manage the end-to-end procurement & logistics operations for our UAE procurement hub.

Key Responsibilities:

- **Procurement & Logistics:** Manage the purchasing of raw materials and finished goods in UAE and coordinate their seamless export to our factory in Riyadh.
- **Global Imports:** Oversee the importation of goods from China and other international markets into UAE and KSA (Riyadh).
- **End-to-End Operations:** Handle the entire logistical cycle, including freight forwarding, customs clearance, and documentation, utilizing third-party agencies where necessary to ensure smooth operations.
- **Compliance:** Ensure absolute adherence to all import/export regulations, requirements, and documentation standards for both the UAE and KSA.

What We Are Looking For:

- Proven, hands-on experience in import/export operations, procurement, and customs clearance (even if facilitated via 3PLs).
- Deep, working knowledge of UAE import/export regulations and documentation.
- The ability to work independently and represent our business interests effectively.

- Strong negotiation skills and a solution-oriented mindset.

Important Note on Structure: Please be aware that we will not be officially registering a legal entity in the UAE immediately. However, we will arrange for all necessary legal permits to ensure working in UAE, acting independently representing supply chain requirements on our behalf.

If you are an experienced operations professional looking for a challenging role where you can make a tangible impact on a company's international growth, we would love to hear from you.

Please reply to this email with your updated CV for our review.

We look forward to exploring how your expertise can drive our expansion.

Best regards,
