EXECUTIVE PROFILE

Project-focused business and operations professional with 7+ years of progressively broad cross-functional experience spanning project coordination, business development, procurement, production expansion, HR, financial performance, and systems implementation. PMP, Lean Six Sigma Black Belt and Lean Six Sigma Green Belt certified, with hands-on ownership of projects from requirements and planning through stakeholder coordination, sourcing, implementation, UAT, and delivery. Currently a critical project owner and business lead for the development of a customized Odoo ERP ecosystem, partnering with consultants and developers to translate company-wide needs across Finance, Marketing, Procurement, Production, HR, CRM, and related operations into an integrated management platform. Known for connecting commercial priorities, process improvement, people, suppliers, and technology to deliver practical business outcomes.

- Client & supplier management
- High-ticket / enterprise sales

PROFESSIONAL EXPERIENCE

ERTQA Company for Advertising

BUSINESS DEVELOPMENT EXECUTIVE | PROJECT & TRANSFORMATION LEAD • Riyadh, Saudi Arabia

JUN 2023 - PRESENT

- Lead strategic business development initiatives while owning special projects that require cross-functional coordination, analytical problem-solving, commercial planning, and execution against organizational goals.
- Act as a project owner and business lead for the company-wide customized Odoo ERP initiative, collaborating directly with Odoo consultants and developers to translate operational requirements into a scalable system covering Finance, Marketing, Procurement, Production, HR, CRM, and other core business needs.
- Drive the ERP project through requirement gathering, process mapping, prioritization, stakeholder alignment, solution discussions, development coordination, testing/UAT, issue resolution, and business readiness, serving as the critical link between business users and the technical delivery team.
- Lead procurement and supplier coordination to establish cost-efficient supply chains; negotiate with vendors, monitor performance, and support contract terms, commercial decisions, and delivery requirements.
- Oversee financial performance considerations for business and project activities, using data analysis and commercial insight to identify efficiencies and improve profitability.
- Build and manage long-term relationships with VIP clients, luxury brands, government entities, and corporate customers; successfully handled high-ticket opportunities with accumulated sales values of approximately SAR 700K to SAR 1M.

FEATURED TRANSFORMATION PROGRAM | CUSTOM ODOO ERP

Project Owner / Business Lead

Enterprise-wide workflow and management system initiative connecting Finance, Marketing, Procurement, Production, HR, CRM and supporting business functions. Owns business requirements, cross-functional alignment, development coordination, testing/UAT, issue resolution and practical adoption needs.

ERTQA Company for Advertising
